

To Whom It May Concern:

I am writing to share with you that we were very pleased to be able to book the Heartfelt Stories team last spring for our Right to Read daylong presentation. Mr. Rastoka's team did an excellent job engaging our students in grade level assemblies throughout the day by having them create their very own stories. Our students engaged in writing their own grade level story by sharing ideas and thoughts guided by the Heartfelt Stories team. I give Dave and his team a lot of credit for their enthusiasm, as they worked with 675 students. In the evening, the Heartfelt team signed books and put on a presentation for our parents and other community members. Our parents were pleased with the wonderful messages their stories represent. I would highly recommend the Heartfelt Stories Team for small group and large group presentations.

Sincerely,
Maggie Niedzwiecki
Assistant Principal Perry Elementary
